

## **VALCUCINE'S APPROACH AND PHILOSOPHY**

Valcucine's vision is to be an ethical company whose production reflects deep care for its users, its employees, the environment and the world community. Ecological and ethical responsibility extend throughout every stage of Valcucine's manufacturing, starting with our green and comfortable work environment, which inspires the invention of safe processes with no toxic emissions, all the way through to industrial waste recycling. Valcucine is committed to producing 100% recyclable kitchens made of 100% recycled materials. The continuous search for technological and aesthetic solutions, to reconcile Humanity and Nature, leads us to materials and design with a fresh beauty that works for the 21st century.
